**Issue:**

Discussion/Decision – Potential Zoning Text Amendment – Petroleum Storage (as an Accessory Use)

**Background:**

In response to difficulties being experienced by landowners in Carroll County – principally within the agricultural community - planning staff and the Planning & Zoning Commission have been examining the portions of the Zoning Code dealing with petroleum storage regulation. Specifically, these discussions have focused on the definition of “Petroleum” and the provisions of each individual zoning district which regulate “Petroleum Storage”. An ad hoc committee of interdepartmental staff was assembled to investigate the matter; staff included: Mary Lane, Tom Devilbiss, Jay Voight, Tim Burke, Jason Green, Clay Black, Brian Van Fossen and Phil Hager. Several meetings took place and extensive research was performed.

Following a comprehensive review and analysis, a draft identifying several modifications was prepared. This draft was reviewed and edited by the committee. Once complete, the draft was presented to the Planning & Zoning Commission for review and comment. The Planning Commission suggested a few modifications. These modifications were examined and where possible, integrated into the draft of the proposed amendment. This draft was then presented to the Planning Commission a second time, after which the Planning Commission, by a unanimous vote, endorsed the proposal and directed staff to pursue the matter further with the Board of Commissioners as a proposed text amendment.

Pursuant to established practices the Board, following staff presentation, typically approves the concept and directs staff to take the proposed draft and return to the Planning Commission in order to have the proposed legislation finalized and then forwarded to the Board in the form of a request for hearing.

Following the Board briefing, staff reviewed the final draft with the Planning & Zoning Commission on March 15. By unanimous vote, the Planning Commission approved the draft text amendment and requested that staff return the item to the Board with a recommendation of adoption. In accordance with standard procedures, staff is now requesting authorization to proceed to a public hearing in the matter.

This specialized unit includes three Prosecutors and a Special Victims Unit Advocate who aggressively prosecute domestic violence and sexual assault cases shifting the focus of these crimes from victim responsibility for prosecution to offender accountability. The Unit holds perpetrators of domestic violence and sexual assault accountable through implementation of the pro-prosecution, evidence-based prosecution and victimless prosecution models. Training is another priority of the SVU Unit with training for the unit's three prosecutors in the specialized areas of domestic violence and sexual assault, as well as continued training of law enforcement.

The VAWA grant supports the salary of the DV prosecutor which opened 396 DV cases in 2015. The County provides the match for the VAWA grant by funding the balance of the DV Prosecutor's salary and the benefits, as well as the salary and benefits of the Special Victims Unit Advocate (a county position).

## **Open Session**

### **Issue:**

*Environmental Advisory Council (EAC) Report & Recommendations re: Solar Surface Area Requirements in Residential Districts*

### **Background:**

In October 2015, Commissioner Dennis Frazier requested that staff review the maximum size requirements for solar energy conversion facilities in the residential zoning districts and provide a recommendation if warranted. The County Administrator then directed the project to the EAC to be added to their proposed 2016 Work Plan. The EAC members reviewed the project at the January 21, 2016, annual joint meeting between the Board and the EAC.

The request focused on the size requirements primarily related to ground-mounted systems, as roof-mounted systems are not subject to the 120-square-foot maximum. The EAC members researched, reviewed, and discussed the various approaches used by other Maryland counties. The EAC's findings and recommendations were summarized in a report, which was reviewed by Land & Resource Management staff, as well as Comprehensive Planning staff. The EAC approved its final recommendations for Board consideration in a report on April 20.

The EAC will present its findings and recommendations to the Board and seek either additional direction or approval to proceed with its findings and recommendations to the Planning & Zoning Commission for its review.

### **Action:**

Discussion/Direction – Request approval to proceed with presenting the report and recommended Code revisions to the Carroll County Planning & Zoning Commission.

### **Staff-Recommended Motion:**

*I move that the Board of Commissioners accept the EAC's report and direct the EAC to proceed with presenting the report and recommended code changes to the Carroll County Planning & Zoning Commission for its review and potential recommendation to the Board.*
